

## COVID-19 Remobilization of the Membership Plan – Phase III

Connecticut Wing Civil Air Patrol  
Awareness and Compliance  
COVID-19 Remobilization (Phase III)  
15 APR 2021

To the Parent(s) or Guardian(s),

The Connecticut Wing of the Civil Air Patrol (CAP) has received approval to move forward with Phase III operations of our local squadrons in conjunction with local, State, and national laws regarding COVID-19 mitigation efforts and under the guidance of Civil Air Patrol's National Headquarters and Northeast Region commanders.

The State of Connecticut reopening guidelines permit no more than 50 people indoors or unrestricted attendance outdoors. Participants will be self-certifying that they are COVID-19 low-risk and healthy with no exposures. A temperature check may be conducted at the beginning of any sponsored CAP event that involves such gatherings.

CAP Phase III operations now includes overnight activities, indoor training, and conferences. Civil Air Patrol Connecticut Wing will be closely monitoring State of Connecticut reopening guidelines, safety protocols, attendees, and participants during such events.

All participants shall:

- Wear a face covering (where required)
- Maintain social distancing (where required)
- Continue with frequent hand sanitization
- Be healthy – no body temperature of 100.4 F or greater and no COVID exposure within 14-days

CAP members who are fully vaccinated may have the opportunity to remove their facemask should all in attendance be fully vaccinated. If an unvaccinated individual is present, all attendees must wear a facemask. As a parent/guardian, we are asking for your permission to allow your cadet to participate in the vast and exciting programs that CAP continues to offer and are working hard at planning events in the near future. CAP CTWG will attempt to maintain a clean and safe environment for all participants. We look forward to getting our members back into a normal routine that includes meeting together as a group once again knowing both safety and health are front and center.

Very Best Regards,

Col. James A. Ridley  
Connecticut Wing Commander
